**Short intro:** Some very-very powerful people are involved in [child trafficking](#), [pedophilia](#) and even [child sacrifice](#). The [mainstream media is also owned and controlled by very-very powerful people](#), so **we are the only ones exposing them**.

**You're not going to see any of this on TV** (unless it's to "debunk" the claims without any official investigation).

As a result, ever since [PizzGate](#), a [very powerful apparatus has been set in motion](#) in an effort to gradually shut us down through sustained & continuous [censorship practices](#). **ALL** social media platforms censor us to some extent, and, as a result, we've lost some 5x-10x the page count (some even more) — and **it's worse by the day**.

If you want to help us, then please [subscribe via email](#) to our daily newsletter, [consider a monthly contribution](#) (if you can afford it with ease) and make sure to stand with us when the time comes.

Sex trafficking area found a couple of days ago is gaining traction and is being removed from websites (especially Reddit) Rothschilds involved heavily, so no surprise.

Removed thread:

Bans thrown out to tons of people participating or questioning the mods.

Latest update from a woman that was just up there:

I wanted to write a post and outline a few things regarding the camp that was discovered earlier this week.

If you have further interest in what is going on, please like the page for VOP as they are updating often.

I know many of you are concerned about the safety of going down there and I can only say that these are trained veterans that all made it back from deployments to “the sandbox” they protected our lives over there and now they are protecting us here. Never once was I scared. We are actually here now.

## VOP's motto is “God's got my six”

They are straight down the middle Patriots that are not militia, not radical anything (not radical left, not radical right not radical religious). Many of them have only had a few hours sleep the past 6 days and they are still very passionate about protecting children — all children.

They happened upon this camp while out searching for homeless vets that may need some help or services.

They were deeply concerned and called in others that have expertise in this area. Experts have confirmed that this is a child sex trafficking camp.

Craig Sawyer and his team are Experts at this and they have been down here and have confirmed that **this is undeniably a child sex trafficking camp**. Mark and I have been down here and I know nothing about sex trafficking camps and I don't WANT to believe it, but yet **it's undeniable**. I have seen quite a few homeless camps and this is altogether different.

## **Update:** Seven days have passed and the government doesn't want to investigate this probable child trafficking camp

Graves, boxes of toys, [they dug up](#) a bloody knife, female underwear, and the plane ticket of a potentially missing girl from Seattle — and the police say this is not evidence?

The veterans filmed the finding live on Facebook, and shortly thereafter, the police showed up and arrested two members of the group for trespassing.

Reference: <https://www.facebook.com>

## **Update 2: PRISON CELL MADE FOR CHILDREN, RAPE TREE, CHILDREN'S TOYS.**

MASSIVE COVER-UP BY CITY OFFICIALS, SHERIFF'S DEPARTMENT, SCHOOLS SHOW PEDO SWIRLS, VETS ARRESTED BY CORRUPT COPS.

## **Update 3: Veterans On Patrol Arizona Border crisis — Latest info OPERATION backyard brawl**

VOP happened on this camp and tried for 3 days to get officials down here to gather evidence. I asked what we could tell you and they said: They are not tampering with evidence. The most critical or damning evidence has been collected and taken out per protocol, by VOP.

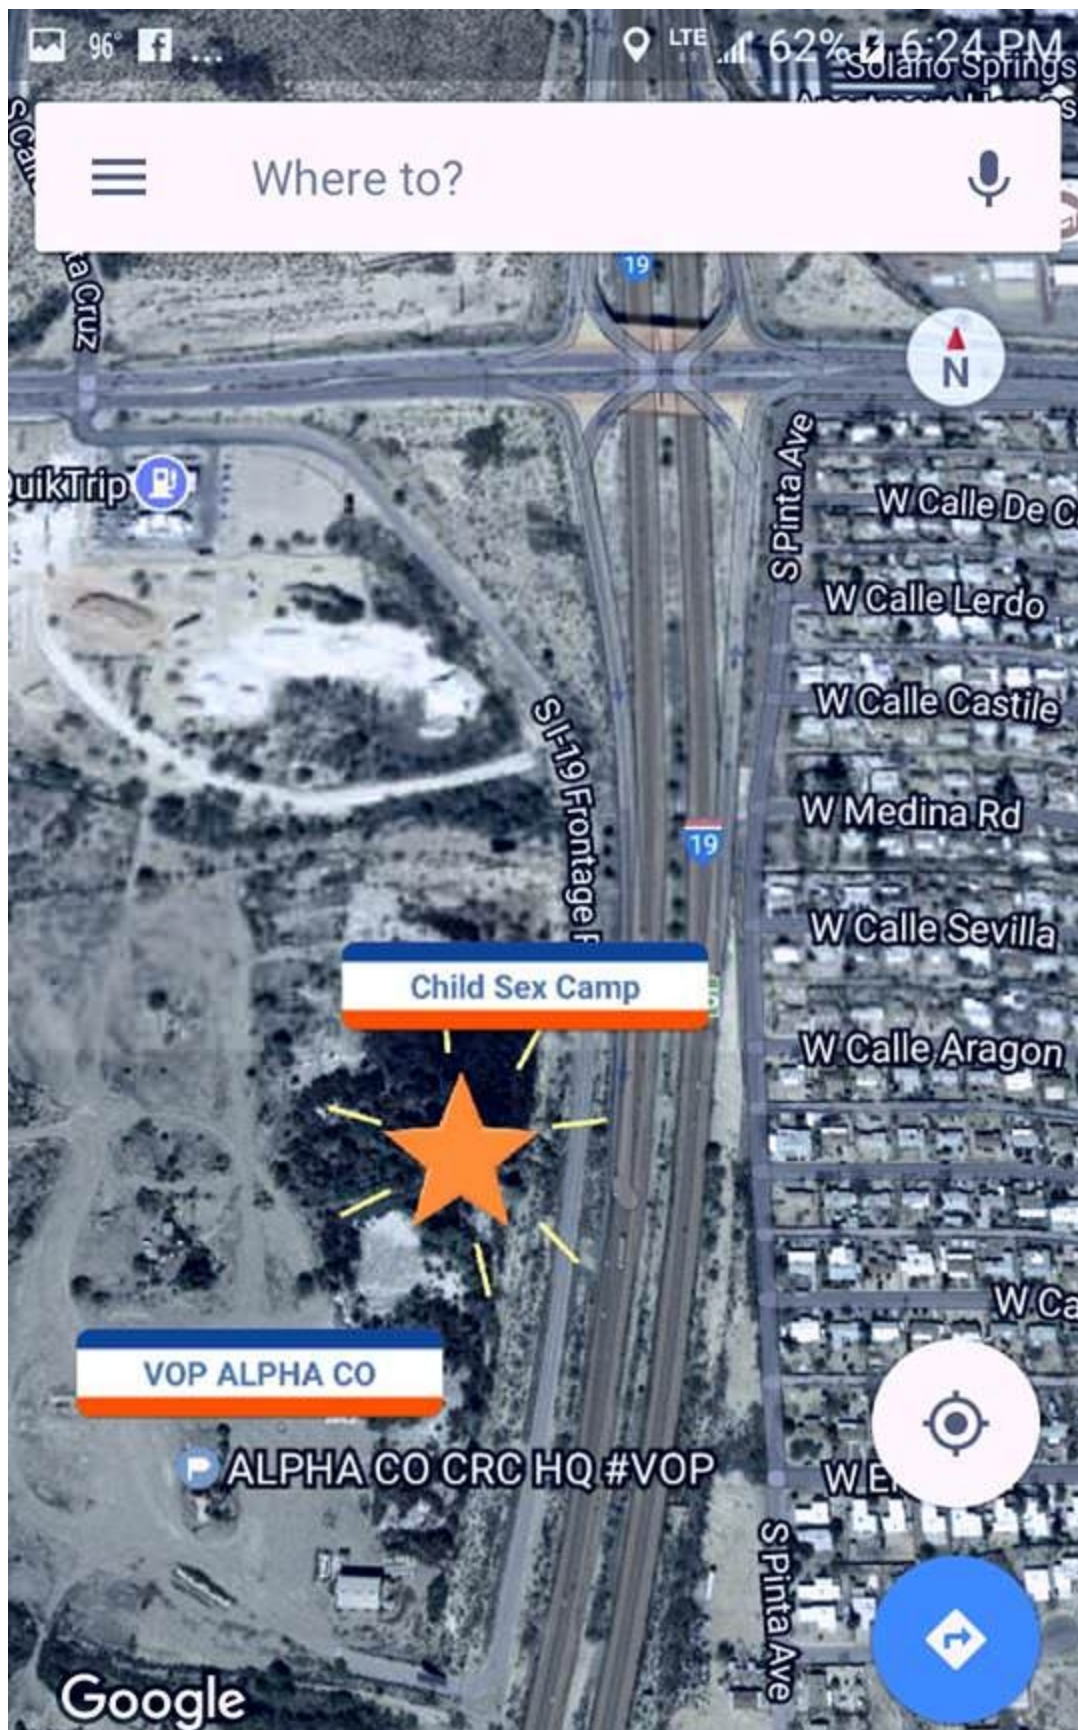

New evidence was just found and everyone is wearing gloves.

If the FBI and Homeland security wont come down and take all of this evidence then Thank the Lord these guys are. They are finding items that could lead to missing children. They have found log books, blueprints, drop books. Do you know that a child is worth \$100k or more? And can be sold over and over and over again.

Please pray for these guys. That's all I can say.

The police have now blocked the gate access and arrested 2 volunteers who were at the gate but on public property."

I want to...

TUCSON, AZ (Tucson News Now) - Veterans on Patrol is a group that looks for homeless veterans. They search washes and bridges looking for homeless vets that they can help get off the streets.

"The solar lights are what gave it away," said Lewis Arthur. "If we hadn't been walking on the right trail we would have never seen it, we would have walked right past it."

But the camp this group found on Tuesday night, May 29 near I-19 and Valencia was suspicious. In their eyes, it didn't look like a typical homeless camp.

The group found several suspicious and disturbing things, like trees that had restraints on them, a crib, a stroller, in addition to hair dye, an outdoor bathroom and pornographic material.

"And we are right there and our city is right there, our children are right there and it's not my problem if it's not in my backyard," said Arthur. "Now it's in our backyard."

On Thursday afternoon, May 31 Tucson News Now toured the area with Craig Sawyer and Jerry Peyton, a former Navy SEAL and Tucson firefighter, to get their thoughts on what this camp might have been.

"I didn't expect to see something this heinous and inhumane this close," said Sawyer. "I served in the military to keep things like this from happening here that's why I risked my security, so nobody here would have to put up with this."

The "cave" the group found is about 5-feet high and at the end is a tire and a large water container. Even more disturbing is what was found inside the container - a dresser and two crates. It was not big enough for an adult, but a child could easily fit inside.

"I have heard of rooms full of kids in houses and basements and things like that, but nothing underground like this, like an underground cell that's pretty creepy," said Sawyer.

He said it looked like the last time someone was at this camp was possibly 10 days ago, and he believes they could come back.

"In fact there's another one nearby that they found that they are already digging with fresh tools and fresh dirt," according to Sawyer.

We were told Tucson Police Department investigators were out to the camp recently to take photos and write a report.

## BIOGRAPHY

Mayor Jonathan Rothschild came to City Hall promising accountability in government, increased emphasis on economic growth and help for those most in need.

Since taking office, the mayor has helped settle the long-standing Rio Nuevo dispute, opening a new era of downtown redevelopment. He codified and increased incentives for Tucson businesses. And, he led efforts to invest in Tucson's roads and police and fire departments, making for better streets and a safer city.

Mayor Rothschild's work in Mexico has been recognized in both Washington, DC and Mexico City. He is a leading advocate for developing infrastructure in Sonora and Arizona that will create an economic region where both states are prosperous and secure.

During his first year in office, the mayor focused on revamping the Planning and Development Services Department, reducing wait and processing times for building permits, and consolidating inspections.

## Cemex teams with Clinton-backed UN Foundation Alliance

Amid General Assembly of the United Nations meetings in New York City, Cemex officials signed an agreement to join the UN Foundation Global Alliance for Clean Cookstoves. The public-private partnership seeks to protect the environment and improve local communities' quality of life by creating a global market for clean and efficient household cooking solutions.

"By joining the Alliance, [we] will foster the adoption of cookstoves in Latin America and Asia, strengthening our ongoing corporate social responsibility efforts in these regions and contributing to the well-being of their communities," said Cemex Chairman Lorenzo Zambrano. The company has worked in the field the past three years, he added, providing sustainable cookstove solutions in tandem with government agencies, social entrepreneurs, academia and nongovernment organizations. The Alliance partnership enables Cemex participation in steering committee and advisory group activities, plus high-level meetings with sister UN organizations and the Clinton Global Initiative.

Launched in 2010 by then-Secretary of State Hillary Clinton, the Alliance eyes adoption of clean cookstoves and fuels in 100 million households globally by 2020. It advocates for alternatives to open air stoves, whose pollution levels jeopardize individual and community health. The group is "building bridges between the public and private sectors to make the basic but essential act of cooking safe and healthy worldwide," notes Alliance Executive Director Radha Muthiah.

Ex-Military find possible human trafficking rape camp while searching for homeless vets to help.
